

Interview and Interrogation

January 28 and 29, 2016

8:00 a.m. - 5:00 p.m.

Chillicothe Fire Department

700 Second Street

Chillicothe, Missouri

Course Description: This course is specifically designed with police officers, investigators, and coroners in mind. Gathering information from potential witnesses, family, and medical staff is vital in police and coroner investigations. Most law enforcement officers get a small amount of this training in basic academy and then learn as they go from actual case work. This on-the-job approach does refine skills, but if the skills are flawed or underdeveloped to begin with, the flaws just get worse.

Another vital area of communication is the suspect interrogation. A successful interrogation must be well planned, and investigator attitudes must be right from the start. Suspects will shut down and lawyer up fast when they are disrespected or frightened.

This course will systematically walk the student through the process of gathering vital information from anyone who may have knowledge. Areas specifically covered are; the unique approach to take with family, interviewing children, conducting an area canvass, gaining vital medical information, and talking with victims of sexual assaults.

The suspect interrogation portion will teach students how to get confessions. What approach to use and how to plan your interrogation. A portion of this course will focus directly on gaining confessions from sexual abuse and molestation offenders.

The information and techniques taught in this course are not theories but actual steps successfully being used by hundreds of investigators across the country; and has been successfully used by the instructor for over 20 years.

Cost: The cost of this course is **\$300.00** per officer to non-contracted / agencies.

THERE IS NO CHARGE TO CONTRACTED COUNTIES / AGENCIES.

This training qualifies for sixteen (16) hours of Missouri POST Continuing Education Units in the areas of Technical Studies through the Missouri Sheriffs' Association Training Academy, a POST-approved continuing education provider.
